Product Description:	The Vantage Pro2 and Vantage Vue product line is a set of weather monitoring devices that transmit and receive weather data via a frequency hopping spread spectrum radio using FSK (frequency shift key) technology. The various models measure different combinations of the following weather variables: temperature, pressure, humidity, wind speed, wind direction, solar radiation and UV radiation.	
Declared Frequency:	868.0 – 868.6 MHz FHSS	
Additional Information:	CKC Laboratories, Inc., 0976 Testing Laboratory	

I, the undersigned, declare that the equipment specified above complies with the essential protection requirements of the EC EMC Directive 2004/108/EC.

Product Description:	The Vantage Pro2 and Vantage Vue product line is a set of weather monitoring devices that transmit and receive weather data. These are accessories (spare parts) for the Vantage Pro 2 and Vantage Vue product line. Products including rain bucket, anemometer, humidity, temperature sensor, leaf wetness and solar and UV sensors.	
Declared Frequency:	None
